

Nancy Ekwere

Frontend developer actively building real-world projects with a focus on clean, responsive web interfaces. Skilled in HTML, CSS, JavaScript, and React, with hands-on experience using APIs, TypeScript, and Tailwind CSS. I'm currently working on production-level applications and seeking an internship to contribute, grow, and collaborate in a professional environment.

PROJECTS

Frontend Developer: Propelio (Early Stage Real-Estate Startup)

Tech Stack: HTML, CSS, JavaScript

2024

- Collaborated with a startup team to design and implement early-stage landing pages for a real estate platform.
- Built static UI components including hero sections, service highlights, and property listings using HTML and CSS.
- Assisted in exploring potential interactivity using JavaScript (search inputs and dynamic image handling)

Zeus Movie App

Tech Stack: HTML, CSS, React

2024

- Developed a web application that provides real-time updates on the latest movie releases.
- React, JSX, CSS, and a bit of Tailwind were used in this React project to give it structure and make it visually appealing.
- React Router was used to address routing in the app, and also used Axios for API integration.
- Implemented Firebase as a backend tool for authentication and data management.

Frontend Developer: Project Vas

Tech Stack: React, TypeScript, Tailwind CSS, Axios, Git

2025

- Developing the frontend interface of a social content discovery platform that allows users to explore, subscribe to, and share AI-generated content.
- Implementing mobile-first, accessible layouts based on Figma designs to ensure a smooth and consistent user experience across devices.
- Collaborating with backend and design teams to align interface development with API contracts and user flow expectations.

Frontend Developer: Early Stage Real-Estate Startup (Stealth Mode)

Tech Stack: React, Tailwind CSS, Axios, Git

2025

- Currently building responsive, mobile-friendly UI components using React, TypeScript, and Tailwind CSS for a confidential real estate platform.
- Handling API integration using Axios, managing loading states, validation, and error handling for robust user interaction.

LANGUAGES & TOOLS

HTML, CSS, Bootstrap, JavaScript, React, Tailwind, Firebase, Git.

SKILLS

Problem-solving, Collaboration, Communication, Time Management.

LEARNING INTERESTS

Typescript, Artificial Intelligence, JavaScript Frameworks (Next.js, Vue.js), Testing (Jest, Cypress), Blockchain.

EDUCATION

University of Uyo, Nigeria
B.A. English
Language- Feb 2023
